

WHY CHOOSE ZERO GRAVITY?

Zero Gravity recliners offer a uniquely supportive recline position, designed to suspend your body in a neutral posture where your feet are elevated above your heart. Smooth, seamless power motion is operated by the touch of a button, allowing infinitely adjustable seat and back positions for a remarkably comfortable, customizable experience.

ZERO GRAVITY

CUSTOMIZABLE COMFORT

Our Zero Gravity recliners offer infinitely adjustable settings between four basic positions. Easy-to-operate controls independently adjust the seat back and leg rest, allowing you to customize your ideal seating profile.

UPRIGHT POSITION
Incredibly comfortable, supportive and relaxing, this position contributes to an ideal posture by providing the perfect combination of support and cushioning.

TV VIEWING OR READING POSITION
Feet are elevated, and the head is comfortably cradled to ensure maximum comfort and proper body alignment.

ZERO GRAVITY POSITION
Body weight is evenly distributed, for a deeply relaxing recline that mimics the feeling of floating.

HIGH THERAPY POSITION
This position elevates feet and calves above the heart, neutralizing the affects of gravity.

FEATURES

Fully personalize your comfort and maximize ergonomic benefits.

ADJUSTABLE HEADREST PILLOW
The headrest support pillow allows you to tilt your head back, cradled at just the right angle.

ADJUSTABLE LUMBAR PILLOW
The lumbar support pillow fits between the small of your back and the chair, and can be adjusted to suit your comfort level.

ARTICULATING HEADREST
Simply adjust the headrest angle along with the recline angle of the seat back for perfectly supported head, neck and shoulders.

HEATED BACK*
Experience therapeutic relaxation with an optional heating function.

AIR MASSAGE*
Palliser technology uses air-filled bladders that can be customized to individual needs, featuring massage modes including pulse, wave, and alternating zones.
